

Canada Needs More Workers

With present prospects for a bumper crop in Western Canada this year—the highest since 1912—says the *Winnipeg Free Press*—with the railway companies all clamoring for thousands of unskilled laborers to be used in construction work, coupled with the announcement that if they are not obtainable hundreds of miles of badly needed branch lines cannot be built; with such a shortage of cool predicted that Western Canada will be forced to rely entirely upon the production from its own mines, and with extensive road-building programs being deferred because the necessary labor cannot be obtained, the question of immigration to this country once again looms up as one of paramount importance.

During the war immigration was practically at a standstill, and, in addition, the energies of all people were diverted to war effort. As a consequence development work and construction programs of all kinds were halted. Now, after an interregnum of six years, there is a enormous amount of work to be done in order to "catch up." There may be a sufficient supply of skilled labor, but there is a shortage of unskilled workers. Yet there must be unskilled workers in order that the skilled workers may be kept employed.

No doubt Canada could obtain all the foreign labor it requires if it let down the immigration bars, and three or four doors wide open to all and sundry who cared to come. But Canadians have made up their minds not to repeat the mistakes of the past. The immigration, law-abiding, physically fit and morally clean of all the white races will be welcomed, but no longer will the alienation of Europe, the mentally deficient, the morally leprous, the physically unclean and weak, be allowed to enter Canada to pollute this country, and to contribute to others, and lowered the standard of our people.

The difficulty of securing the right type of immigrants, the only kind we are prepared to receive and welcome, is increased by the fact that while the war-improvement countries of Europe are willing to allow the influx and degenerates of their people to emigrate, they are anxious to retain the strong and sound in order to re-establish all the productive enterprises of their own lands. Canada's problem of securing immigrants of the right and only acceptable type is, therefore, no easy one.

According to United States government immigration officials only lack of ships is keeping back hundreds of thousands of prospective European immigrants from reaching that country notwithstanding the generous passport restrictions. The Chicago Tribune declares that "nearly six thousand aliens in many European countries have applied for permission to emigrate to America," and The Literary Digest says that for more than a month immigrants have been arriving in the United States at the rate of ten thousand weekly.

It will be seen, therefore, that notwithstanding the prohibitions now

enforced by the United States and Canada on undesirable, and the efforts of European countries to retain those of their own people who are of the desirable immigrant type, workers can be obtained if the government immigration officials bestir themselves. In particular, Canada should strive to secure new settlers and real workers from the British Isles and the United States.

Other countries are active and are offering inducements to the immigrants. We read in a United States paper:

"Numbers of Italians, Spaniards, and French are going to Argentina, where there are many of these nationalities already located. Free land is being given to the newcomers."

"Brazil is not only paying passage for immigrants, but takes care of them on arrival, and transports them free to their destination."

"Chile is inducing immigration by giving one hundred acres and implements to each immigrant."

"New Zealand has arranged with the shipping companies for reduced fares for desirable immigrants." So, Canada will have many competitors in the effort to secure desirable settlers and workers. Yet no student of present day conditions in this country can here need the need of additional population in this country. Without it, people now here must carry unduly heavy burdens of taxation, while at the same time going without the necessities and services to which they are entitled and need in order to prosper as they should.

Governments can do much, but every individual can assist by making the newcomer welcome and assisting him in every possible way to "make good" and thereby become a satisfied and contented citizen, while the rest of the third man or woman should be made as pleasant as it is in the power of the employer to make it.

Dread of Asthma makes countless thousands miserable. Night after night the attacks return, and when brief relief is given the mind is still in a state of unrest. Dr. J. D. Kellogg's Asthma Remedy changes all this. Relief comes, and at once, while future attacks are ward off, leaving the afflicted one in a state of perfect health and peace, once believed he could never enjoy. Inexpensive and sold almost everywhere.

A pure white clay found at Pompeii has been used by the Romans.

Good for Father and Good for Son

MR. C. ROY PRAISES DODD'S KIDNEY PILLS

He States That They Relieved His Son of Bed Wetting and Himself of Bladder Trouble.

"My little boy, who is now five years of age, has been suffering from bed wetting for some time. I have tried many remedies, but nothing has helped him. I have heard of Dodd's Kidney Pills, and I have bought a box. I have given him a few pills, and he is now perfectly cured. I am glad to state that I have also been suffering from bladder trouble, and I have also been cured by Dodd's Kidney Pills. I cannot say too much in praise of Dodd's Kidney Pills."

"Dodd's Kidney Pills are a kidney remedy pure and simple. But bladder and urinary troubles come as a result of weak or diseased kidneys. The natural way to treat such trouble is to strengthen or help the kidneys. Mr. Roy acted on this principle when he heard of Dodd's Kidney Pills, for his own and his son's troubles. The satisfaction he got is voiced by his statement."

If you have not used them yourself, ask your neighbors if Dodd's Kidney Pills are not the remedy for kidney ills.

Many a man hugs delusions who would prefer to embrace the real thing.

Irritated Itching Skins Soothed With Cuticura

Bathe With Cuticura Soap Dry and Apply the Ointment

These super-creamy emollients usually smothering close, clog pores, and irritate the skin. Cuticura Soap, dry and apply the ointment. It is the only remedy for itching, redness, and soreness. It is the only remedy for itching, redness, and soreness. It is the only remedy for itching, redness, and soreness.

Price 25c. October 25 and 30c. Sold everywhere. Cuticura Soap, dry and apply the ointment. It is the only remedy for itching, redness, and soreness.

Germany Delivers Coal

Also Sends Livestock to France and Belgium

Up to May 30, German deliveries of coal to France under the treaty of Versailles amounted to 4,686,000 tons. It has been officially announced by the reparations committee. Of this total 405,000 tons were given to Luxembourg, Italy received 300,000 tons and Belgium 98,000 tons in the same period.

Germany up to the end of May, the announcement shows, also had delivered to France 6,547 horses and 7,575 goats.

German deliveries to Belgium in this period were 3,116 horses, 43,489 head of cattle, 32,644 sheep, 63,492 goats and 28,339 fowls.

Similarity in Food Prices

Cost in Ottawa Slightly Higher Than in London, England

A remarkable similarity in the cost of groceries in England and in Canada is revealed in a comparison of a list of household staples in the two countries, made within the last month. The figures are given out by a Canadian official. Pricing a score of staples, ranging from bread to custard powder, the whole supply costs about a dollar more in Ottawa than in London, England. Bread is 4 cents higher in Canada; sugar is 10 cents per pound higher, and jam and marmalade range from ten cents to 15 cents higher here. But in England, butter, eggs, lard, sausages, Worcester sauce, rice, oranges and dried fruits are all higher in price. Eggs were \$1 a dozen, and butter about \$1.10 a pound for good grade.

Both these prices are due for a sharp decrease in London, however. Vegetables are still much cheaper in England than in Canada, and butcher meats average from 30 to 40 cents a pound. Cost is about \$1.25 a ton cheaper in England.

Watches Cleared With Bread

No Other Substance Can Be Used With Success

Perhaps the most useful use to which bread is put may be seen in some of the great watch factories, where more than 40 loaves of fresh bread are, or were before the war, sometimes used each day. From earliest times in the history of watchmaking it has been the custom to reduce fresh bread to the form of dough. This dough is then kneaded by moving oil and chips that naturally adhere in the course of manufacture to pieces as small as the parts of a watch. There are many good grades of watch, by the way, that are so small as to be barely visible to the naked eye. These are made of gold, silver, and steel, and the chips stick to it, and there is no other known substance which can be used as a wiper without leaving some of its particles attached to the thing wiped. This accounts for the continued use of bread dough in the watchmaking history.

Teachers' Household Science Course The University of Saskatchewan has recommended the establishment during the academic year 1920-21 of a one-year course in household science for teachers in the provincial schools, the course to include both foods and textiles as well as related subjects, including chemistry.

It takes a woman to smile when her rival is praised.

Counting in China Ten thousand is the largest number in the Chinese language. Therefore all large sums must be stated in multiples of this figure—the population of the country is four times 10,000 times 10,000, or 400,000,000.

Livestock Often Shrink in Transit

Can be Avoided by Proper Precautions in Shipping

Investigation by the Colorado Agricultural College is beginning to show that shrinkage of live stock when shipped to market can be very greatly reduced. The most important thing is a considerable saving in stock crowding. The next thing is to have the animals well fed and contented when they are loaded and until they are sold at the terminal point. In other words, plenty of feed and water and comfortable quarters are most important.

"Some farmers," says R. W. Clark, live stock specialist for that institution, "ship regularly with little or no shrinkage, while others at all times have enormous shrinkage."

Trouble Brewing

Trouble is brewing in connection with the taking over of German airplanes by the Entente as provided for in the Peace Treaty, according to the Berlin Lokal Anzeiger. The correspondent states that the staffs of the Zeppelin works are preparing to surrender to the Entente unless guaranteed that two passenger airplanes shall be left and that no destruction of the worksheds or their installations is contemplated.

WOULD NOT BE WITHOUT BABY'S OWN TABLETS

Once a mother has used Baby's Own Tablets for her little ones she will not be without them. They are the ideal home remedy for the baby; being guaranteed to be absolutely safe, free of opiates or other harmful drugs. They are a gentle but thorough laxative and have been proved of the greatest aid in cases of constipation, indigestion, colic, colds or simple fevers. Consult your Dr. Ernest Gagne, Beauport, Que. Baby's Own Tablets for constipation and colic, and have found them so successful that they would strongly recommend every mother to have a box of Baby's Own Tablets at hand to be used by medicine dealers or by mail at 25 cents a box from Dr. W. L. Williams, Medicine Co., Brockville, Ont.

Settlers on Irrigated Land

Five thousand acres of land on the Canadian Land and Irrigation company's tract have been donated by settlers from the United States and are being put into crop. Water will be available this summer to irrigate the growth.

A girl thinks a man impertinent if he tries to flirt with her and indifferent if he doesn't.

UNFIT TO LIVE—MUST DIE

The verdict rendered a thousand times over runs clear. Use them to get rid of Pimples, Corns, Eruptions, it cures pimples in 24 hours. Use them to get rid of Pimples, Corns, Eruptions, it cures pimples in 24 hours. Use them to get rid of Pimples, Corns, Eruptions, it cures pimples in 24 hours.

Getting a Start in the West

Choosing the Best Time to Come to Western Canada

Those who contemplate coming to western Canada are interested in knowing when is the best time to come to this country. Experience has shown that the best results are obtainable from land that has been broken during the summer one year and allowed to stand and put into crop the following season. The best time for breaking raw land in western Canada is during the months of June and July. Then the grass is long and the soil turned over at this time is properly disintegrated, thus assuring an excellent seed bed for planting the following spring.

Of course, considerable land in Western Canada is broken and put into crop the same season. Flax or oats is then generally sown because these grains ripen more quickly than wheat, but sometimes wheat is sown on spring-broken land. Often very good crops are harvested from such land, so that the land begins to pay for itself the first season, but it is doubtful if the results in the long run are as good as when the soil has been broken when the grass is fresh and long the previous summer.

From the above it is seen that from the middle of May to the end of July is the very best time to take up land in Western Canada in order to prepare it for crop the following year.

This is especially true in the case of the enormous amount of moisture has placed the land in an ideal condition for breaking.

England in Second Place With Turks

Anglo-Saxon Next to French Tongues Employed in Moslem Empire

The Germans have failed in their effort to stamp their culture upon the Turk and, instead, the English language is beginning to rank next to French in the commercial life of the Levant.

In the war period German language schools were opened throughout Constantinople, in which German officers were required to teach and German papers were circulated by all possible means. But the results were almost nil. Most of the schools were free and failed to attract better classes, and French was too strongly entrenched as the language of trade and social intercourse to be displaced.

Since the armistice Italians have been working industrially to popularize the language and literature. Italian officers are now teaching schools as the Germans did. But their schools are well attended only in the poorer parts of the city.

Turkish is but little used in important commercial transactions in Constantinople, and the use of whatever nationality speak French. The English who have been in business in Turkey for years generally transact their business in French.

There is no more effective vermin-killer on the market than Miller's Worm Powders. They will not only kill the larvae and the beetles of worms, but will prove a very serviceable medicine for children in regulating the digestive system, and maintaining it in a healthy condition. It is nothing in their composition that will injure the most delicate stomachs, and it is given to children in the full assurance that they will utterly destroy all worms.

Government Changes

Sir Robert Borden has resigned, and Arthur Meighen, a Winnipeg man, is the new Premier of Canada. Sir Robert Borden has steered his country through the course of the war with credit, and there is no doubt that the strain under which he has been laboring has affected his health, and we hope that the relief from the strain of public office will enable him to recuperate and that he may be spared for a long time yet.

Though Sir Robert, as Premier, has to take the responsibility for the acts of his Cabinet during his term of office it is certain that he has to take the advice of his advisers, and these advisers have for, in our opinion, been always of the best.

The financial conduct of the war has been characterized by extravagance on one side and timidity on the other. It might truthfully be said that Canada's war expenditure is twice what ought to have been, and by the time the Victory Bonds are paid off it will be four times what it should have been.

At the meeting with which the war was commenced to the people of Canada, "Fight or Flee," had been lived up to, heavy taxation would have been resorted to during the war, when the people were taxed up to it, and an artificial condition of prosperity created, rather than imposing new, to meet the demands of the holders of War Bonds for their tax free interest.

The increase in the National Debt during the war period almost equalled the cost of the war to Canada, and the cost is mostly contracted in Canada. The returned soldiers are now in the peculiar condition of paying taxation to meet the cost of a war in which they spent from one to four of what would otherwise have been the most productive years of their lives, to meet the interest charges of corporations and other large concerns (the three and now the much holders of Victory Bonds) who would in the event of a further continuation of the war, have been obliged to suffer contraction of indemnity by the enemy.

Then again Parliament turned down the veterans' requests for an amount which would help to enable them to meet the changed financial conditions they found themselves in on their return to the grounds of Canada's poverty, and in the same session increased their own personal indemnities to \$1000, against the advice of Premier Borden and the Leader of the Opposition.

The Government since the war failed, have committed various errors of commission and commission. The Board of Commerce has shown the signs of rampant profiteering, but no action has been taken. Subsidies have been given to manufacturers exported to foreign countries when Canada itself is suffering from a shortage of credit for houses, etc., which the money devoted to these subsidies would have alleviated, and the securities would have been better.

But the main fault with the Government is that they have ignored the new spirit that has grown out of the war, the desire to get away from the old lines of politics, and to make the close of the war the dawn of a better era. They and the Government to the South, are still living in the pre-war days. They have not grasped the spirit of the age. Possibly it is because they did not pay deeply enough through the purifying fires of the world's agony. They still think in terms of dollars rather than of humanity.

They have outlived their welcome, and are today holding office against the will of the people, as the by-elections and provincial elections have shown. The words Conservative and Liberal have no meaning now outside of Ottawa. It is time for a change. The time, in fact is overdue.

Advice to Dairymen

—o—
PLANNING TO KEEP UP THE MILK FLOW DURING SUMMER AND FALL.

(Experimental Farm Notes)
Once more we are entering upon the season of the year when the dairy farmer expects the greatest yield from his cows and his pasture, and if the season is right the land will be "flowing with milk and honey." Unfortunately, however, the season is not always just as right as it might be. Invariably in one section or another there is a drought with its consequent shortage of pasture and decrease in milk flow.

It is important at this time that some form of supplementary feed be supplied, for if the milk flow is once allowed to decline it is almost impossible to get it up to the previous high mark again. A little extra feed at this time will produce more milk than three times the amount fed after the decline has taken place. Many will have profited by past experience and have made preparation for the shortage of pasture by sowing a piece of annual pasture or rolling crop. Others again may have some of the previous year's crop of silage to fall back on. In any, and particularly the last of the above methods, we have a very efficient means of supplementing the pasture. The time when we have not yet made any provision it is not too late to see an extra new corn, clover, and timothy, or even a piece of rape. The timothy may be pulled as needed and fed tops and all while the rape may be pastured off in the late summer and fall. Where previous preparation has not been made, cuttings of the regular crops, such as green oats and peas, second-cut clover, and green corn will have to be made to fill the bill.

To speak of stock feeding on pasture at present prices seems absurd and it will be found to be somewhat of an extravagance except with very high producing cows. Where the pasture is of reasonable quality, of two parts barn and one of each of ground oats and cornmeal meal is excellent. Apart from the feeding of the cows, here is the question of water and shade supply, both are very necessary. Where sufficient protection from flies in the form of shade or insecticide is not to be found, it would be advisable to keep the animals in the stable during the hottest part of the day, and turn them out in the evening. Where supplementary feed has to be cut and hauled to the cows less waste will be occasioned when fed while inside. Where the cows have to necessarily be out all day they should have protection from the flies by spraying with some good fly repellent.

RUMELY IDEAL

It's what you save that counts

It's not only the grain you raise—it's what you save that makes the profit. It's grain in the sack that you want—not in the stack.

The Rumely Ideal Separator, which we sell, and which we back with our reputation, is the most efficient grain saving machine on the market and we can prove it.

A threshing that is not designed right cannot work right. The Ideal is built around the correct principle that a threshing machine to deliver all the grain must keep the straw on the move every minute in a steady even flow. That's the only way to guard against the bunching and choking up that cause incomplete separation and waste grain—frequent delays and limited capacity.

Start at the Ideal cylinder—the way the grates are placed prevent "pushing up" of the straw, bunching and wounding. There's a free even delivery of straw from the cylinder to the patented traveling rack that carries the straw up and delivers it to the straw rack in a constant even stream. And the Ideal straw rack carries out the same principle. Instead of depending upon shakers only, the Ideal rack has a series of lifting fingers that tear the straw open, rake it and beat it from beneath.

We could go on and tell how every operation of the Ideal fits into that first principle of correct threshing but we haven't room here. And anyway, we have a catalog for you that covers the machine from start to finish.

We can supply the Ideal in any of five sizes—big capacity, thorough, clean threshing, every one of them.

Good Crop Conditions Throughout Alberta

FIFTH SEMI-MONTHLY CROP AND LIVE STOCK REPORT.

Crop conditions at the opening of July call for more than usual cautions. A brief review of the season's progress would take account of: Fine general moisture conditions were the province at the opening of spring. A later seedling than most shortly due to plentiful moisture. A fairly early harvest, conclusion of grain feeding owing to the supplementing of horse stock with heavy tractors. The occurrence of limiting factors in drought in Alberta, culminating in the partial blowing of sixty thousand acres north of Lethbridge, some damage by cut worms in the same area, some damage by grasshoppers south of Lethbridge and slight drought in the Calgary-Saskatoon line.

Liberal Rain

Moisture conditions continue to be wholly favorable. Good rains have occurred over the whole province during the past two weeks subject to slight delay in the north area which need of it. Several heavy rains have occurred in the area also and there is going to be some revival of injured crop in the district.

Crop Well Rooted

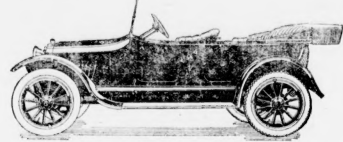

Temperature at night is expected during the period of liberal precipitation have not been high. This is not a drawback to the experienced Alberta farmer. The wheat and oats have been getting well established for heavy tractors. But overall are not made in tropical fields. Following the establishment of the crop warm weather has now set in and the growth is extremely rapid. Some of the grain wheat both in Central and Southern Alberta has reached a height of twenty inches. Grain are in all stages of growth from grain crop covering the ground heavily to greenest just reaching through the soil. In every case the crops are thrived and weeds shoots almost transparent with moisture. At the beginning of the season conditions were reported to be the best for five years and subject to every light discount, the progress of the crop carries on the same promise.

The Provincial Government has made careful provisions for meeting the grasshopper trouble and a federal organization to fight the pest has been promptly carried out and applied. In some cases, have been made available. Besides appearing in the district between Lethbridge and Cardston, grasshoppers have occurred as far north as Stacey Dam near a 500 square in west central Alberta and is serious within a limited area. The only part of the province which appeared to suffer from drought was the area tributary to Vermilion on the Calgary-Sask. line. Two weeks ago dry weather was affecting the crop in that area to some extent but showers have partially relieved this trouble. The Peace River country which is

proved to be mainly slow, early in the season, is now favored with warm weather and crops are coming along well.

Heavy Feed

Live stock every place is doing well and appears to be almost fully recovered from the lean winter. The grain in the south particularly is the best that has been seen on the prairie for ten years.

J. McCAG

Chief Publicity Commissioner,
Department of Agriculture

FATAL ACCIDENT ON HUSSAR RANCH.

The death occurred on Monday, June 24th, of John Campbell, a cattle ranch working at Rat Bay's Ranch, north of Hussar as a result of injuries received when trying to catch a horse. The deceased had roped the animal and in trying to throw it pulled the horse on to his own horse and was thrown, and sustained severe injuries to the head and neck.

He was rushed to the Hussar hospital where everything possible was done for him but he passed away early Monday morning.

The deceased was only 29 years of age and was married in March this year to Miss Strickland of Hussar, and who now resides in Calgary.

He leaves to mourning his loss a brother and sister and also his grandfather, Mr. and Mrs. Campbell, all of whom reside at Hussar.

Despite his extreme youth, the deceased served with the Canadian Expeditionary Force for a considerable period.

Games with Hussar at Standard and Standard at Rockyford will be pulled off in a few days.

At the Bascom tournament on July 1st Bascom defeated Comstock, then beat Hussar, and Bascom won their own prize by defeating Gleichen in the final game.

THINKS STRATHMORE DISTRICT THE BEST IN THE WEST

(Continued from page one)
All this, together with the fact that many roads of teams from the largest out district in the south, leading north for grass, water, and work, make home look good. Tell the men who read your paper and own irrigated land to buy the water, tell them it is positively criminal to have it and not use it, to use it as we get out.

Tell them that we have the chance of Alberta, sweet and best and easiest to advance in, and that those who refuse to help the unfortunate, improve their places, and live worth while are poor citizens and had better move on, and if they don't believe it let them take the drive we took and they will.

F. T. McELHINES

(As copious rains have fallen throughout nearly all the country covered by Mr. McElhines in his trip conditions will be much improved in the dry districts since then—Ed. Standard)

John W. Work, Prop

Plan Further Steps To Keep Cattle Clean

George Hilton, chair of the veterinary branch at Ottawa, who has been in the province for some little time in connection with the dipping bill, held a meeting at the Palliser Friday evening with the members of the stock growers' association, and the members of the Calgary-Liverpool Exchange to consider the advisability of taking further precautionary measures in the future to give one dip to all stock cattle sold in the Calgary yards.

There was a preliminary meeting of those interested yesterday afternoon at the office of the Calgary Livestock Exchange, when Dr. Hilton discussed the stockmen for their cooperation in the work that has been done thus far. He said that never before had there been given such loyal support in the work of eradicating disease, and he said, he had called a meeting with a view to conferring with them regarding the wisdom of carrying on the work further than had originally been planned.

A lengthy and rather doubtful discussion followed in which it was pointed out that if stocker cattle had to be dipped in the Calgary yards, and then in Edmonton, a great many cattle that were naturally tributary to Calgary would go to Edmonton, and if dipping were made compulsory at both places, and the public were left free to sell at their home towns and ship into the clean area without dipping, the bulk of the stockers would be sold at only one auction in the country towns, and that the man who had reason to fear that his herd would be infected from some cattle required dipping, would be sure to be the one who would sell in the country, consequently there would be a chance of his herd being on all cattle sold in the yards, the bulk of which would not require dipping, and would receive little or no attention, while, if there should be an infected animal, it would almost certainly be sold by public auction at home.

Enclosed here-to-day from first money at Drumheller on July 2 and 3, taking the final name from the Monarch Athletic Club.

Standard News Items

Miss Hay who has been teaching at Enfield, Sask., has been receiving acquaintance with friends at Standard, she is visiting at the home of F. McSenger.

Telephone on the rural line have recently been installed north and west of town by C. Anderson, O. B. Burk, Geo. Dickson, A. Nelson and N. P. Nelson.

Geoff Peterson is engaged in building another cottage for Mr. Day, opposite his residence.

At the local F.F.A. meeting held last Sunday evening Messrs. Wagner, J. Breckenridge, J. P. Nelson and Dehede were appointed delegates to the U.F.A. political convention which will be held in Sandstone, Man., on July 15 and 16. The next meeting of the local will be on Saturday, August 7, at 8 p.m. when it will be arranged to have Mr. John Stankovich of Queen's town present to deliver an address. Mr. Stankovich has been a consistent and progressive worker for the Farmers' organization and his visit will be awaited with interest.

A meeting of the School Fair committee was held at Glenhead on Saturday, July 7. It was decided to ask each of the school districts for a donation of \$25 to be used as prize money, and also to have the prize list printed and circulated in all the homes of the district. It was proposed that the cost of the prize list be defrayed by advertising advertisements. A meeting of the committee will be held in the Town Hall, Glenhead, on Saturday, July 17, when it is hoped that the committee will be able to make final arrangements to be made regarding the amount of money available for prizes and the printing of the prize list. Dr. Parnham was elected president of the committee, and the president of the committee of the Old Sun Indian School, secretary of the committee.

O. B. Burkhead brought up the first specimen of wheat seed of wheat already ready out. The reports a field of early seeded wheat already headed out.

Rockyford News Items

A party of town people and farmers gathered at the home of Mr. C. M. Wren on Sunday, July 4th, to celebrate the American Independence Day. The attendance was very large and after a picnic lunch, sports were indulged in and a good time reported by all, who returned in the evening tired but happy.

Mr. Roberts returned home on Tuesday, the 6th, after an extensive visit through the western States, visiting Portland, Ore., Spokane, Wash., and many other coast cities. Also attending the Shriner's convention at Portland during his trip.

The Catholic Ladies Aid are busy engaged in organizing and preparing for the big dinner and supper and light lunches which are to be served during the whole day in the Brimingham Garage. They are also planning to hold a bazaar for 15 minute tickets during the whole day of the sports which are to be held on 22nd July. The posters are very attractive and an area plan design is shown in the center. Let everyone in the district remember Rockyford Sports Day and see to it that a large crowd is present and that the day is made a success.

The Posters for Rockyford Sports Day will soon be sent. A large program has been arranged, including Capt. McCull and his aeroplanes which will take passengers for 15 minute flights during the whole day of the sports which are to be held on 22nd July. The posters are very attractive and an area plan design is shown in the center. Let everyone in the district remember Rockyford Sports Day and see to it that a large crowd is present and that the day is made a success.

Mr. Fred Stinn and Miss S. Stinn are very energetic workers in connection with this affair, and any lady or gentleman wishing to assist should communicate with them and obtain full particulars. Considerable work is entailed in feeding such a large crowd of people as is expected to be present on the Saturday, and a lot of help will be required. Everybody is requested to attend and the Sports Committee have guaranteed a pleasant time.

Jack Byers is at present busy engaged in plastering Mr. A. Sanger's house in Rockyford.

The Fourth of July

A picnic and party was held at the home of Mr. and Mrs. August Stann near Strathmore on Sunday, July 6th, when a large number of residents of Rockyford district and also many neighbors from Strathmore and Glenhead and surrounding districts gathered to celebrate American Independence Day. A very nice dinner was served in the shade of trees on the Stann farm, by the ladies present, after which an enjoyable afternoon was spent by the young people in swimming and other pastimes. Fire works were lighted in the evening to celebrate the occasion. During the evening the first meeting to organize a Rockyford band was held on the grass at which twelve members started up. Among those present were: Mr. and Mrs. Tiedie, Mr. and Mrs. H. Hendricks, Mr. and Mrs. Frank Henke, Mr. and Mrs. Mike Henderson, Mr. and Mrs. M. Julian, Mr. and Mrs. Joe Hendricks, Mrs. J. Toney, Misses Edna Stinn, Lillian Henderson, John Kanarr, Miss Henry, Miss Henson, Messrs. John, Joe Lawrence, Geo. Herman, Albert Stinn, John and Tony Hendricks, Miss Henderson, Miss Tiedie, Stephen Tiedie, Leon Finklin, Joe Stinn and others.

The School Fair

While the date of the Strathmore School Fair has not yet been set, it will probably be sometime in September or the beginning of October. Rev. T. Philp, the secretary, has been trying to get the exact date from the local School authorities, who are in charge of the work in the district.

The following general remarks in connection with school fairs will be interesting in view of the approach of the Strathmore Fair.

Since the school fair originated in the province, organization is carried out at the various centres at which fairs have been held by the Provincial School of Agriculture in whose territory the particular centre happened to be located. This necessitated dividing the province of Alberta into roughly three sections served by the Schools of Agriculture at Claresholm, Olds and Vermilion, and the schools in and around Glenhead would thus naturally be organized for school fairs purposes from Claresholm on account of its proximity, though in actual fact the town of Glenhead falls on the boundary line between the Olds and Claresholm territories.

However, with the fall of 1926 there comes a new era in so far as school fairs and agricultural instruction are concerned. As is well known by now, the Provincial School of Agriculture at present under construction, at Glenhead will be open to receive students at the end of October of this year, and while its main function will be instruction in agriculture and home economics, not the least of its duties (amongst many others) will be the organization and carrying on of school fairs during the summer months. Since similar work will be carried out by the new schools at other centres, and as well as by the three older schools it will be seen that not only will the farmers' school days be brought throughout the province, but smaller distances to travel to their agricultural schools, but also it will be possible for greater attention and more time to be devoted to school fairs work. The addition of three new agricultural schools in the province means that six institutions will now be available for both these phases of agricultural instruction, whereas up to the establishment this same work has been covered, though necessarily not so completely, by three schools only.

It is to be hoped for these reasons that the next year will see many new school fair centres organized with many schools taking part in the fall at points between the Red Deer river on the north and a line joining the towns of Walsh, Canby, Lonsdale and the Red Deer river on the south, with the Glenhead School of Agriculture as the headquarters from which organization will take place. The object of the school fairs is unity, and devotion to those who have had any previous experience with anything of this nature. However, they may be summed up by saying that they have been devised in the endeavor to bring children, parents and teachers closer together, by giving the children a sincere interest in things that make for better agriculture and better homes, by a more personal insight into the latent possibilities of development of their children, and by giving the teachers in closer contact with what will in most cases be the future life work of their pupils, at the same time to encourage agriculture and home economics instruction in the public schools.

Mr. C. W. Chase has sold his dwelling house to Mr. B. Davis.

Games with Housar at Standard and Standard at Rockford will be played off in a few days.

Local Jottings

OF LOCAL INTEREST
Readers are requested to send in items for this column not later than 12 o'clock Monday noon preceding day of publication. All local news items are welcomed by The Standard. Phone 17 or 68.

Strathmore's Catholic Men's Committee held a successful dance in the Opera House on Friday evening. Though it was given on short notice there was a large attendance and everyone thoroughly enjoyed themselves. Refreshments were provided by the ladies, and were plentiful and tasty. Music was provided by Val Bonomettes Golden Orchestra, and was O.K. A number of boxes were auctioned off by Mr. Joe Van Tasson, and brought good prices.

A daughter was born to Mr. and Mrs. R. F. Jones on June 26.

Mr. and Mrs. Henry Allison are at enjoining in the birth of a daughter on July 2th.

After an absence of several years, Mr. Ned Wilson is back to this district to cattle, horse raising with his family. They are at present staying in a house on 5th Street.

Mr. Fox has, we understand, rented the house on first street formerly occupied by Mr. Finney, who left for Vernon, B.C. on Friday.

Mr. R. A. Anderson has now completed a handsome porch in front of his home on 3rd street.

The new King Edward Hall is now open, and fully justifies the advance notices.

Don't forget the Champagne toast month.

A typographical error in this column last week made it appear that there were "over a hundred" in attendance at the Shriners' Convention in Portland, Oregon. Three figures should have been added, the number being "a hundred thousand." Though Dad Tibbatts is a host in himself, he says he could stay at home and get into a crowd of one hundred.

Mr. Angus Watson learned his lesson against ball at town on Friday, and was landed on the same afternoon, which is quick work.

Messrs. H. J. Anderson delivered last week a 15-hp. Ford tractor to Mr. David England, and a similar engine with J. Armstrong, also a winch to Mr. Roy Miller.

Mr. J. W. Carey, Strathmore, offered off last night's and one and one price at Calgary, exhibition for money and wine.

Mr. A. Laporte conducted a highly successful sale for Mr. Van Oerle at Wednesday, most items purchased for cattle, machinery, home, etc. while some buyers attended on high as \$200, the high horses sold for \$100. The demand now seems to be for heavy draft horses. Mr. Van Oerle is visiting his relatives near Custer before proceeding to the Coast.

Mr. J. A. Damsen has received information from Holland that wheat is selling there for 50 golden (420) per 200 pounds and he asks us to explain where the difference comes in between the price there and here. It's too much for us, however. Probably when the record of the Canadian Wheat Board's operations is made public and the surplus distributed the difference will be satisfactorily explained.

Mr. W. R. Harvey, Hamilton Farm, reports his wheat 23 inches high and heading out.

Cheadle Items

Grant Craig's mother has returned to Calgary after a weeks visit here.

Miss Elma Polson and lady friend have been spending a few days at Banff.

Jim McLean leaves this week for his old home in Nova Scotia and eastern points. Mrs. McLean has been out for some time and we are happy to say her health has improved.

Grant Craig and family leave this week for a few weeks holidays. They are going south to their old home town and up in the mountains.

The Cheadle Dance Club held a successful dance on Friday the 2th and real good time was had.

The Cheadle U.P.A. are holding a meeting on the 20th if arrangements can be made with local office for speakers. Everybody come.

DEATH OF MR. F. HILL

The death took place last Thursday
of Mr. F. Hill, at the age of 68 years.
He had been in frail health for some
time past, as the result of a stroke of
paralysis two-and-a-half years ago, but
he had immediate cause of death was
haemorrhage.

The late Mr. Hill was a native of
England, but had been in this country
for a considerable period. He is sur-
vived by Mrs. Hill and a family, com-
prising of his daughter, Mrs. Peter
Campbell, and his sons Leonard, Fred,
and George.

The funeral took place Tuesday
forenoon to Strathmore Cemetery,
services being held in St. Michael's
Church by Rev. Montgomery.

TENDERS FOR SCHOOL HOUSE
Sealed Tenders will be received by
the Board of Trustees of Utterback
School District No. 2572 at the Office
of the Secretary-Treasurer up to noon
July 20th, 1929 for the erection of a
frame school building. Plans and Spec-
ifications may be obtained from the
Secretary-Treasurer on payment of a
deposit of \$5.00, which will be returned
on receipt of a bond file tender, with
plans and specifications. The lowest
or any tender will not necessarily be
accepted.

Plans and specifications may be
seen at the Department of Education.
A. E. HILLDAHL,
Secretary-Treasurer.

Namaka Notes

The ball game and dance had to
be called off Friday afternoon due to
the heavy rain that fell towards eve-
ning.

Namaka under-estimated the strength
of the Crowfoot ball team and only
a few of the regular team journeyed
to Crowfoot Saturday evening due to
the fact that four of the players in
the district east of town were unable
to play, as a result of the heavy rain
evening, three of Strathmore players
being on the line up. Score 14-4.

Namaka
McLean, pitcher; Atkins, catcher;
Lawrie, 1st base; Young, 2nd base;
Inkster, 3rd base; Baker, short stop;
A. McKinnon, right field; W. McKinnon,
centre field; R. McKinnon, left
field.

Crowfoot
H. Way, pitcher; Wheeler, catcher;
R. Knight, 1st base; Clements,
2nd base; Tede, 3rd base; Glines,
short stop; Scherer, right field; West,
centre field; Barnett, left field.

After the game cake and lemonade
was served which was enjoyed by all,
Miss Gladys Lewin, left for
Floyd, Sask., where she will spend a
few weeks holidays.

The Hammer Hill ball team defeat-
ed Glenora by a score of 6-4 last
Tuesday evening.

Jack McDonald and company is away
on a joy trip this week.

If Shouldice had a narrow escape
with his tractor this week while it was
being operated on a field adjoining
Namaka Lake. One of the front wheels
ran over a twelve foot embankment
the tractor was stopped just in time.
However, with the aid of blocks and
tackle the tractor was pulled back
from this precarious position.

Ball struck the eastern wall of town
Friday afternoon, doing heavy damage to
Inkster's Brawhaws.

Dipping was completed Wednesday
in this district. Early in the morning
hundreds of head of cattle began to
assemble at the Namaka Farm and
were quickly got through the vat. As
far as we know, all affects to the
milk cows have been reported.

It is likely that Namaka and Crow-
foot will play on the local diamond
Saturday evening.

Bob Conter left last week for Can-
nada to take over his new duties.

**A FRESH WATER SEA VOYAGE
TO THE EAST**

Across the Strait Lakes the Cana-
dian Pacific Railway maintains a sum-
mer to weekly steamship service that
has every fascination of ocean travel
with none of its discomforts. When
you are on deck in the morning the sun
is there before you, while the fresh air
and breeze give a new lease on life and
an appetite which makes mealtime
welcome.

There is the novelty of ship life and
the comfort of luxurious accommodation.
There is the climbing up, the making
of new acquaintances. There is either
loathing in sunny corners or
promenades on the upper deck in the
tang of the healthy lake breezes. At
night there is your choice of concert
or card party, or hostily cleaning away
of the chairs—dance on the veranda
deck.

The Canadian Pacific Great Lakes
Special which operates direct to the
shipside at Port Williams, leaves Win-
nipeg at 10:45 a.m. every Tuesday and
Friday.

Ask for Great Lakes Folder and
make your reservation with any Cana-
dian Pacific Agent.

**WESTERN CANADIAN IRRIGATION
CONVENTION**

Continued on back page.

The convention will open at 2:30
p.m. on Wednesday, July 20th. In-
stitutions are that there will be a large
attendance and delegates from the
three provinces. The Association
tends to be very friendly to all farmers
and others interested in irrigation
whether they are equally delegates or
not to attend to attend the meeting
of the convention and take part in the
discussions that have been arranged.
The convention is being held at a time
of the year when crops are well ad-
vanced and it will be possible to see
on the adjoining farms some of the
results of irrigation.

Agriculture

It is imperative that every agricul-
tural form a sound association with a
progressive banking institution.
This Bank is stimulating production by
providing a broad service for ambitious
farmers. Any of our 400 branches and
furnish reliable information as to mar-
keting and shipping facilities.
Resources exceed \$174,000,000.

UNION BANK OF CANADA

Strathmore Branch and Safety Deposit Boxes, J. L. Van Tighem, Manager
Langdon Branch and Safety Deposit Boxes, A. L. Smart, Acting Manager
Branches also at Standard and Carlsbad

Come to The IRRIGATION CONVENTION

The fourteenth annual convention of the Western Canada
Irrigation Association will be held at Lethbridge, Alberta, July 28, 29,
and 30th.

Helpful addresses on matters of interest to all concerned with
irrigation farming and with agriculture generally will be given by lead-
ing authorities on the various subjects. Visits to irrigated farms in
the surrounding districts where the practice of irrigation farming is
well advanced are also being arranged for the benefit of visitors and
delegates.

A cordial welcome to this important convention is extended to
all farmers whether practicing irrigation or not. Come with creden-
tials from your municipality, your Board of Trade, your agricultural
society or I.F.A. local, if possible, or come without credentials if you
cannot obtain them. You will be just as welcome.

Full particulars regarding the convention can be obtained from
THE SECRETARY
Western Canadian Irrigation Association,
Box 2018, Calgary, Alberta.
